

DC/SSP take stock of the Muharram arrangements in Magam

October 15, 2015:

District Development commissioner Budgam, Mir Altaf Ahmad accompanied with SSP Budgam and a team of officers today visited various areas of Magam to take stock of the Muharram arrangements. During his visit, the District Development Commissioner visited Imambara Magam. Large number of delegations met the District Development Commissioner during his visit and apprised him of the various problems confronting them. The people demanded, firewood, drinking water supply and uninterrupted power supply during the Muharram days. The District Development Commissioner assured the delegations that their demands will be taken up with the concerned authorities on priority basis. Executive Engineer, PDD was directed to install High mass lights near the Imambaras and ensure uninterrupted power supply during the Muharram days. He was also directed to install Generator set in the Imambara magam. Executive Engineer, PHE was directed to ensure water supply without any interruption and also provide water tankers on daily basis in these areas. Assistant Commissioner, Development, Budgam was directed to repair sanitary points on priority basis in the areas where main Majalis will be held. Executive Engineer R&B was directed to repair the link roads in and around the Imambaras. Directions were also given to CMO to take proactive measures with regard to keeping available first aid, mobile ambulances and other facilities during the precession days. Deputy Commissioner stressed upon the accompanied officers to provide every facility to people especially in the shia dominated areas.
